VIDOK ALUMINIUM DOOR A DESIGN YOU CAN **RELY ON**

ALUMINIUM ENTRANCE DOOR

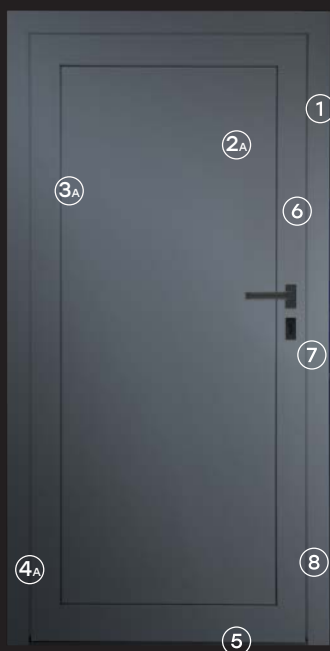

Dedicated to the most modern architectural solutions, where minimalism and purity of form are combined with the best utility parameters. Construction based on multi-chamber, thermally insulated aluminum profiles, enriched with special fillings flush with the surface of the frame.

Stable, with above-average durability, resistant to burglary and changing weather conditions. A wide range of finishing options will take you to a space full of beauty and comfort from the very beginning.

PANEL DOOR

- ① Door frame based on a thermally insulated system sections with a construction depth of 70 to 95 mm.
- ② Door panel filled with hardened polyurethane foam PUR or XPS, with high thermal insulation. Available in one-sided or double-sided aligned version, in many designs.
- ③ Decorative millings or optional stainless steel application aligned on one side or both sides.
- ④ Door hinges in a style that takes into account the latest trends. Available with roller or concealed hinges.
- ⑤ Low aluminum threshold with thermal insert and seal.
- ⑥ Automatic lock access control via numeric keypad, proximity reader, fingerprint reader, remote control or smart connect.
- ⑦ Class A or C door insert, optionally in a one key system.
- ⑧ Multipoint locking system. Available in automatic version.

INSERT PANEL DOOR

- ②_A Door panel filled with hardened foam PUR or XPS polyurethane, with high thermal insulation.
- ③_A Decorative millings or optional stainless steel application glued or aligned.
- ④_A Door hinges available in roller or concealed versions.
