# GLAZING BARS

THERE ARE A FEW DIFFERENT TYPES OF GLAZING BARS:

## STICK-ON BARS

mounted on both sides of the glazing unit which gives the appearance of divided panes, without a sealed unit spacer bar in-between.

## TRADITIONAL BARS

mounted on both sides of the glazing unit which gives the appearance of divided panes, with a sealed unit spacer bar inbetween.

## STRUCTURAL BARS

are part of the window frame and divide the glass into smaller panes. Their finish is identical to the window frames.

## INTERNAL GLAZING BARS

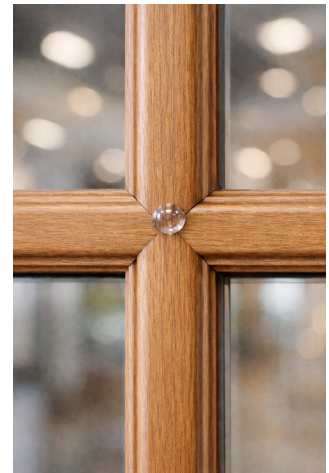

internal glazing bar is completely encapsulated in the glass cavity, ideal for easy cleaning of internal and external glass surface.

# INTERNAL GLAZING BARS

Internal glazing bars, placed between the panes of glass, combine a classic look with exceptional ease of use. They require no cleaning or additional maintenance, making them a highly practical solution. Available in a wide range of shapes, widths, and colours, they allow for complete customisation to match any interior style. An excellent choice for those seeking perfect harmony between aesthetics and functionality.

## AVAILABLE COLOURS

- all colours of internal glazing bars are available in 18 mm, 26 mm, 45 mm
- gold one is not available in 45 mm
- they can be veneered and painted in RAL colours according to individual calculations

## AVAILABLE IN

8 mm, 18 mm, 26 mm, 45 mm

## INSTALLATION

internal glazing bar

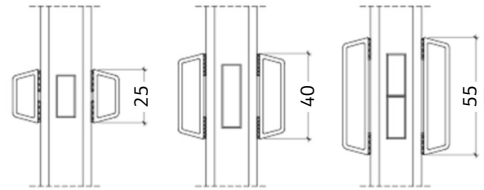

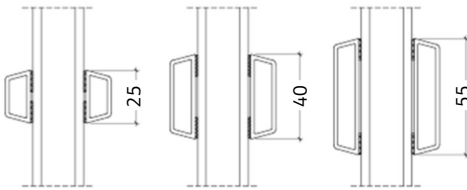

We do not provide any guarantees after exceeding the length of the bars without support.

PVC glazing bars are an economical and stylish addition to windows. Lightweight, easy to maintain, and resistant to moisture and UV radiation, they offer lasting durability. With a wide range of colours and various width options, they perfectly match the look of any window joinery. A practical choice for those seeking a proven solution at an affordable price.

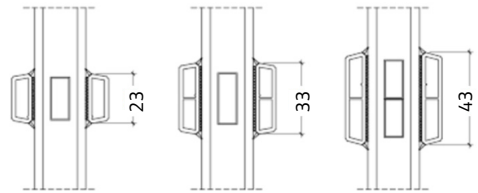

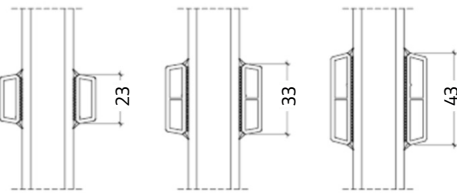

## STICK-ON BARS

## TRADITIONAL BARS

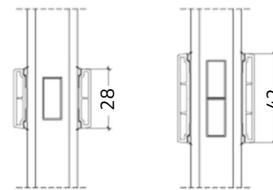

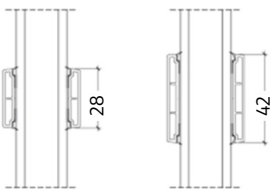

### VP-70, VP-76, VP-82 GOLD ENERGY

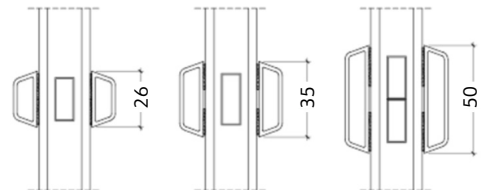

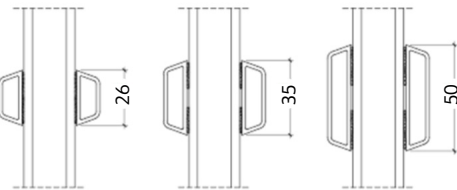

### VP-74, VP-83

### VP-80 PLATINUM DESIGN

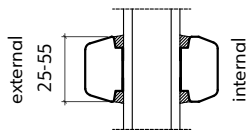

### KÖMMERLING VP-76

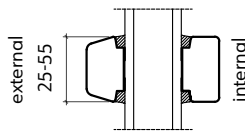

Wooden glazing bars highlight the natural character of joinery and add a refined touch to interiors. Perfectly suited to classic, rustic, and manor-style designs, they uphold the highest aesthetic standards. Crafted with attention to detail, they are available in a variety of wood species and finishes. An ideal choice for those who value tradition and timeless style.

VIDOK's commercial offer also includes wooden clip-on external glazing bars.

Wood-aluminium glazing bars combine the charm of natural wood with the durability of aluminium. The interior wood finish provides a warm, elegant look, while the external aluminium side ensures long-lasting resistance to weather conditions. An ideal solution for premium architecture and modern residential projects.

## TRADITIONAL BARS

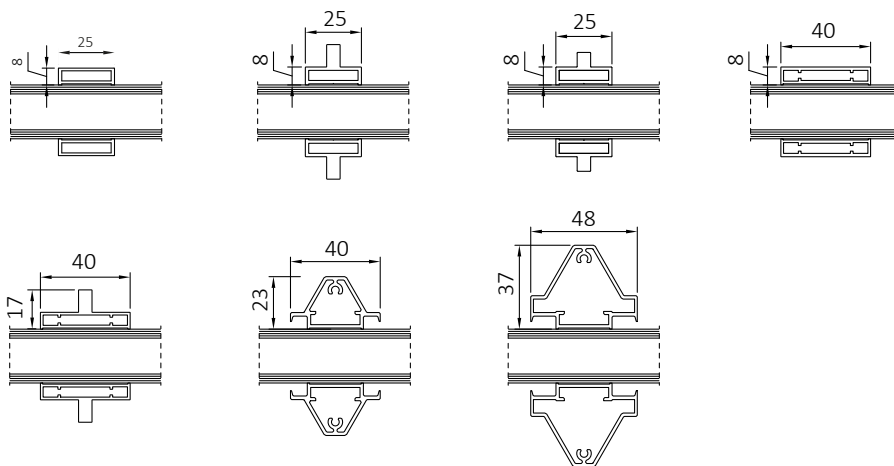

# ALUMINIUM STICK-ON BARS

Aluminium glazing bars are a modern solution for those who value elegance and durability. Their lightweight construction does not burden the window frame, while emphasising the geometric character of the façade. Resistant to weather conditions, they are an excellent choice for large glazed surfaces.
